Tsunami \$2,000 in aid sent to help feed families and help retrieve bodies from ponds, clothes, water, then long-term building 100's of new homes to replace destroyed ones, help with fishing boat motors...so many different areas. During a period of two years, a team led by LCS graduates and 30 to 40 of our own team members served with no pay. We also coordinated 1000's of volunteers from all over the world. Received recognition from the ambassador of Thailand and USA.

### India
